All Limited Series prints are taken with large format view cameras with either 4x5 or 8x10 film. The film is professionally drum scanned, then printed on light sensitive archival photographic paper using a lightjet printer. All prices include standard flush mounting and a gloss laminant to protect the print. Framing and premium mounting services are available at an added cost. Each photo is limited to a total of 100 prints. I reserve one for my own collection, so there will only be 99 available for purchase.

After 10 prints of a given image are purchased, the cost of the next 10 prints in that series is raised by 20%. This way the initial prints are sold at a substantial discount. The above chart illustrates the price points for the entire series with all the print sizes shown. Please note that the smallest print size possible for the Limited Series prints is 20"x25". 50"x62" is physically the largest I can print.

All Open Series prints are taken with either 35mm film, or high end digital SLR capture. They do not have the same enlargement potential as the Limited Series prints that are shot with large format film. Open series prints will print as large as 20"x30". (*) Please note that a few select images can print larger than 20"x30". For those images, I will offer print sizes up to 40"x60".

There is no limit to the number of prints that will be issued from the Open Series. All prints are printed on light sensitive archival photographic paper using a lightjet printer. The above prices are for the print itself. Mounting services are available at an added cost.

To purchase my work, please note the name of the print you would like to own, and contact me directly either by telephone (619) 244-5092 or by email (info@benhorne.com). The greatest complement you could give me is to hang my work in your home or office. Thank you for taking the time to view my images.
